Reno for Rio Bonito.

Am willing to trade Rio Bonito lands in Butte county, California, for two or three town lots, or for a house and lot in Reno. It is believed that Rio Bonito property will increase in value 100 per cent within two years. There are no richer lands in the world than the Feather river bottom lands, good for oranges, lemons, peaches, apricots and other fruits without irrigation. This is an excellent opportunity for speculation, or to get a home in one of the best spots in California. Will be in Reno for a few days, and will be pleased to meet all those who wish to avail themselves of this opportunity.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not be there your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed us, you may depend upon. eow

Cure for Piles.

★ Itching Piles are known by moisture like perspiration, producing a very disagreeable moisture after getting warm. This form, as well as Blind, Bleeding and protruding Piles, yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors allaying the intense itching, and effecting a permanent cure. 50 cents. Address The Bosanko Medical Co., Piqua, O. Sold by S. J. Hodgkinson & Co., Reno, Nev. 1y

Dr. Bo-San-Ko

In his new discovery for Consumption succeeded in producing a medicine which is acknowledged by all to be simply marvelous. It is exceedingly pleasant to the taste, perfectly harmless and does not sicken. In all cases of Consumption, Coughs, Colds, Whooping Cough, Croup, Bronchitis, and Pains in the chest, it has given universal satisfaction. Dr. Bosanko's Cough and Lung Syrup is sold at 50 cents by S. J. Hodgkinson & Co., Reno, Nev. fe15-6m.

Bucklen's Arnica Salve.

The best salve in the world for cuts bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Hodgkinson & Co. 1y

Merit Will Tell

Was never better demonstrated than when "Fryer's Abietene Remedies" were awarded diplomas at the late California State Fair at Sacramento, and at Mechanic's Institute at San Francisco. Wm. Pinniger is agent for these celebrated "Abietene Remedies," and he offers to return your money if they do not give satisfaction. In buying, be sure the facsimile signature of Dr. Fryer is on each, as none are genuine without it. 1y

An Absolute Cure.

The ORIGINAL ABIETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and skin eruptions. Will positively cure all kinds of piles. Ask for the ORIGINAL ABIETINE OINTMENT. Sold by Osburn & Shoemaker at 25 cents per box—by mail 30 cents. 1y

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhœa. Twenty five cents a bottle.

AFTER THE BATTLE.

It was after the din of the battle
Had ceased in the silence and gloom,
When hushed was the musketry's rattle,
And quiet the cannon's deep boom.
The smoke of the conflict had lifted
And drifted away from the sun,
While the soft crimson light, slowly fading from sight,
Flashed back from each motionless gun.

The tremulous notes of the bugle
Rang out on the clear autumn air,
And the echoes caught back from the mountains
Faint whispers like breathings of prayer.
The arrows of sunlight that slanted
Through the trees touched a brow white as snow,
On the bloody sod lying 'mid the dead and the dying,
And it flushed in the last parting glow.

The dark, crimson tide slowly ebbing,
Stained red the light jacket of gray;
But another in blue sadly knelt by his side
And watched the life passing away.
Said the jacket in gray: "I've a brother—
Joe Turner, he lives up in Maine;
Give him these, and say my last message
Was forgiveness." Here a low moan of pain
Checked his voice. Then, "You'll do me this favor,
For you shot me:" and his whispers sank low,
Said the jacket in blue, "Brother Charley,
There's no need, I'm your brother, I'm Joe."

TO AMUSE A GUEST.

The Various Pastimes Proper to a Country Residence—Etiquette of Carriage Riding.

Now, how to amuse a guest in the country is one of the questions which a young hostess will surely ask.

Lawn tennis seems to be the solvent, so far as the young are concerned. Every country place should have a lawn tennis court. Archery has not yet become acclimated in America, but there are clubs in certain circles which promise a future for this game.

Yachting is a favorite summer entertainment, and adds much to the ease of country neighborhoods near the sea.

The opulent young people, near New York, who keep horses and dogs, who can offer everybody a "mount," and take them to the hunt, have great facilities for entertaining guests. But no incompetent rider should ever get on a friend's horse. An English writer has said a man will forgive you for breaking his own neck, but not for breaking the neck of his favorite hunter. But driving in a carriage over a good road is by far the favorite amusement for ladies.

A correspondent writes to ask the etiquette of carriage riding. A gentleman always takes his seat with his back to the horses, opposite the lady, unless he is requested to sit by the lady. When he enters the carriage he should put his left foot on the step and enter the carriage with his right foot. This is, however, supposing he sits facing the horses; if he sits with his back to the horses he reverses this process. When the carriage stops he must be the first to alight, and then assist the ladies. He must, if he sit beside the lady who owns the carriage, sit on the left hand.

Ladies who own country houses and who entertain should learn to drive well. Indeed, in these days, when ladies drive ponies in little carts, we need not advise them to drive well.

Many correspondents ask what is the best equipage for a young man? A tilbury and one horse is very showy, a dog cart the most convenient, a high chariot very stately, but the two-seated post wagon the most convenient for a country neighborhood. There should always be a servant behind.

A guest who is asked to stay over Sunday at a country house should always hold himself at the disposal of the hostess. If she proposes a plan of action he should fall in with it, and yet he should not be a heavyweight. He must be ready to walk, read, write letters, take himself off if he sees he is not wanted, and the best hostess is she who sees to it that, while her guest is taken care of, he has no suspicion that he is being "entertained." The charm of a country neighborhood should be in its ease, and while a good-natured host and hostess place their grounds, their horses and carriages, and their servants at the disposition of their guests, the greatest care should be observed by the guest not to presume on this; to observe the family hours.

Some people are "born visitors"—they have the tact to perceive when they are wanted and when not; they allow the hostess to get off to write her letters, they are gay and amusing. Such a visitor is in great demand.—M. E. W. Sherwood, in New York Sun.

A HINT TO THE ENTERPRISING.

The Industry of Rearing Sponges for the Market.

M. Oscar Schmidt, professor at the University of Gratz, in Styria, has invented a method by which pieces of living sponge are broken off and planted in a favorable spot. From very small cuttings of this kind, Prof. Schmidt has obtained large sponges in the course of three years, and at a very small expense.

One of his experiments gave the result that the cultivation of 4,000 sponges had not cost more than 225f., including the interest for three years on the capital expended.

The Austro-Hungarian Government has been so much struck with the importance of these experiments that it has officially authorized the protection of this new industry on the coast of Dalmatia.

Arithmetical.

Teacher—"Now, remember, Robert, that a horse's front legs, as you call them, are his fore legs. Will you try to?"

Bobby—"Yessim."

Teacher—"That's a good boy. Now, before I dismiss you, tell me again how many legs a horse has?"

Bobby (promptly)—"Six legs."

Teacher—"Six? How do you make that out?"

Bobby—"The two legs what's his hind legs and the fore legs what's his front legs is six legs."—Binghamton Republican.

Handiness of the Corset.

Four men thank their stars that the dress reformers have not yet succeeded in driving the corset out of use by women. They are the four men who escaped from the Ashland (Wis.) jail by sawing off the iron bars with a piece of steel taken from the stays of a woman prisoner.

Women should be careful to look far into the future before they lay aside this article of dress. There is no telling when a corset may come handy.

PLATFORM AND RESOLUTIONS

The following platform and resolutions were adopted by the Republican State Convention, which convened at Winnemucca on the 15th instant:

The Republicans of the State of Nevada, in Convention assembled, again express their loyalty to the principles of the Republican party, which have made this country so great and prosperous during the last quarter of a century.

RESOLVED, That the question of a sufficient supply of circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

That a diminishing quantity of money reduces the price of labor and property, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the national banks, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to the national banks without interest, is subversive of the rights of the people, oppressive, unjust and should be repudiated.

That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be coin, or coin certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

That the attempt to substitute national bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people; that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonetized silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for government and law. We demand that this ring or trust be destroyed, and equal rights be restored to all the people.

We charge that President Cleveland is the willing tool or agent of a powerful money ring, which fattens on the subsidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by taxation and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches usurers, while it depresses the price of labor and property.

That we favor the nomination of no man for President who is personally interested in national banks or the bonded indebtedness of the United States, but we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

That the trick of the President and his advisers by which they prevented a vote in the House of Representatives on the Beck silver amendment to the Bond Purchase bill, equals the villainy of the secret and fraudulent demonetization of silver in 1873.

II.

RESOLVED, That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages, and to that end will protect the wage-workers from competition with the cheap labor of other lands.

RESOLVED, That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or money trust, of which he, either as agent or head, is most active in defending.

III.

We charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the mail service, with refusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his administration to prevent appropriations for navy and coast defenses, with attempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the United States, and with joining the foreign bondholders to demonetize silver and destroy the industries of his own country, and for the reduction of the wages of the Mint employes at Carson, for closing the Carson Mint when it was not only self-sustaining but a source of revenue to the Government, for his contemptuous vetoes of bills for the relief of disabled soldiers and sailors, and for failing to construct the Government building at Carson as required by law.

IV.

We are in favor of the absolute exclusion of Chinese, and of the restriction of immigration by which the overcharged condition of the labor market is made worse, and we favor legislation by which a revision of our naturalization and land laws may be accomplished.

V.

We demand in behalf of our various industries the retention of the duties on lead borax, soda, hides and leather, and to restore the tariff of 1867 on wool.

VI.

RESOLVED, That we recognize the right of labor to organize for its lawful protection.

VII.

We favor the appropriations by Congress for hydrographical and topographical surveys in this State, to the end that the waste waters may be preserved for the purpose of irrigation.

VIII.

We endorse the wise and conservative administration of Governor Stevenson, and we heartily commend the able efforts of Senators Jones and Stewart and Representative Woodburn in behalf of the interests of this State.

IX.

We favor the granting to Nevada of all Government land within the State for the purpose of providing means for irrigation and other improvements.

X.

We favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, their widows and orphans, the improvement of rivers and harbors, the building of defenses for the sea coast, the erection of public buildings, the creation of a navy, the purchase of bonds and the repeal of the internal revenue laws taxing tobacco.

XI

It is the duty of this State to maintain free, non-sectarian schools in the rural and sparsely settled districts, as well as in towns and thickly populated sections, and that such division of the school money shall be made as will furnish the means of education to all children of the state.

XII

We are in favor of reopening the Carson Mint for coinage and raising the wages of its employes to the standard paid by the last administration.

XIII.

We demand the restoration of the mail service in this State to the efficiency maintained by the last Republican administration, and favor the payment of fair wages to all postal employes.

FOR PRESIDENT,
BENJAMIN HARRISON,
Of Indiana.

FOR VICE-PRESIDENT,
LEVI P. MORTON,
Of New York.

TUESDAY..............................JULY 7, '88

EVERY old citizen and many of the younger ones know that there is a middle ground or bank in the Truckee at Reno and below it. The present low water in the river calls it and its significance again to mind. For some time the question of sewerage for Reno has occupied public attention, and this middle bank refers to it as to other town eyesores and evils. If this high ground can be removed it will do much towards helping the sewerage question; towards a peaceful termination of the water troubles between the Reno Reduction works and the Asylum authorities; towards promoting the health of the people of Reno and vicinity, by affording drainage to Boynton's slough; towards settling the numerous lawsuits which have heretofore furnished employment to lawyers and taking the time of the courts at a heavy expense to the county and the depletion of the pockets of the ranchers, besides affording other reliefs too numerous to mention. The small sum of $10,000 will do the work, according to the offers of responsible men. There are various ways by which this sum can be raised. For instance, an appropriation by the legislature, the empowering of the County Commissioners to see that it is done, or by rate bills on those who would derive the greatest benefit. There is hardly a rancher on the Truckee Meadows but would, if the season proves profitable, help the matter along and be glad to do it.

The GAZETTE does not advocate immediate action, but mentions the matter as an evil which must some day be remedied, and that in the near future.

AFTER reading the following extract from Cleveland's letter accepting the nomination for President four years ago, it is not easy to understand how an honest, candid man, could even accept a second nomination, much less pull the ropes and use the immense patronage of the office to secure it. Here it is: "When an election to office shall be the selection by the voters of one of their number to assume for a time a public trust instead of his dedication to the profession of politics, when the holders of the ballot, quickened by a sense of duty, shall avenge truth betrayed and pledges broken, and when the suffrage shall be altogether free and uncorrupted, the full realization of a government by the people will be at hand. And of the means to this end, not one would, in my judgment, be more effective than an amendment to the Constitution disqualifying the President from re-election. When we consider the patronage of this great office, the allurements of power, the temptation to retain public place once gained, and, more than all, the availability a party finds in an incumbent whom a horde of office-holders, with a zeal born of benefits received, and fostered by the hope of favors yet to come, stand ready to aid with money and trained political service, we recognize in the eligibility of the President for re-election a most serious danger to that calm, deliberate, and intelligent political action which must characterize a government by the people." What shall the people now think of a man who would utter the above and then turn round and employ, or permit those over whom he has control, to employ the very methods he so strongly condemns, to boost him into office? He cannot be a man fit to represent a great people who would be free.

EPIGRAMMATIC Ben Butler when asked what he thought of the Democratic emblem, replied: "Emblem! they have got a nose rag," and the St. Louis Globe-Democrat briefly sums up Mr. Thurman's position with the remark that at his time of life Mr. Thurman cannot afford to work his way into the circus by carrying water for the elephant. Taking it all in all, the noble Roman is apt to acquire a huge fit of disgust before the close of the campaign.

CONGRESS.

Tariff Discussion Resumed and Wool Again Taken Up.

WASHINGTON, July 16.—In the House to-day, on motion of Whitthorne, a special evening session for next Saturday was ordered for the consideration of bills from the Committee on Indian Depredations.

The tariff discussion was resumed, and wool again taken up.

Taylor of Ohio said that should wool be placed on the free list sugar should go there also, for it was an equity. He assured the committee that if this tariff bill goes into effect the result would be disastrous to fine wool raising in Pennsylvania, Ohio and West Virginia.

Taylor said that the President did not know why he recommended placing wool on the free list any more than Dickens' fat boy knew why he fell asleep so often

Adams then spoke against free wool.

Jackson, objecting to free wool, said it was not the desire of Pennsylvania, Ohio or West Virginia manufacturers to have wool on the free list. We excel in the production of the finest grades of wool. One hundred years have been taken to develop the wool industry from the coarse to the fine production; so why strike down this industry at a single stroke? There are no possible arguments which patriotic and interested Americans can bring forth why wool should be free.

Williams read an extract from resolutions adopted by the Texas Wool-Growers Association, opposing free wool and the wool clause, and rebuking Mills for imperiling the wool industry of the country.

Anderson of Iowa favored free wool, and though he favored free sugar and rice he thought the bill was drawn up very fairly.

Kelly replied to the remarks of Scott on Saturday. The reply was a reiteration of the statements made heretofore, that Scott's facts were imaginary.

Breckinridge then spoke for free wool.

The Committee of the Whole has refused, by a vote of 102 to 120, to strike wool from the free list.

FOREIGN CONTRACT LABOR.

A Committee Appointed to Investigate and Stop the Evil—The Chinese on this Coast to be Attended to.

WASHINGTON, July 16.—Speaker Carlisle has selected as the committee to investigate the importation of contract laborers, convicts, paupers, and other classes of immigrants in violation of law—Messrs. Ford of Michigan, Chairman; Oates of Alabama, Spinola of New York, Morrow of California and Gunther of Wisconsin. The committee may conduct its investigation at such times and places as it may deem proper, may sit through the recess of Congress, send for persons and papers, etc. No limitation is placed upon the amount of expenditures of the committee. The committee will begin its investigations in New York as soon as it is organized. The first subject to be investigated will be the Italian immigration into New York City. The committee will visit the Pacific Coast later to investigate the matter of Chinese immigration.

HENRY M. STANLEY.

A Belief Expressed that He Is the White Pasha.

BRUSSELS, July 17.—Colonel Sir Francis de Winton, President of the Emin Bey Relief Committee, expresses the belief to the King of Belgium that the White Pasha, reported to have arrived at Bahr el-Gazel, is Henry M. Stanley.

Georgia Diamond Fields.

ATLANTA, July 16.—There is great interest displayed over the probability of discovering a diamond field twelve miles out of the city in Clayton county. Some time ago a farmer discovered a peculiar looking stone, which he sent to New York, where $1,800 was paid for it as a diamond. This brought Professor Colden, a South African diamond expert, to the city and he declares that the geological formation where the diamond was discovered is the same as that of Kimberley, in South Africa. Saturday night Mr. Heintz came in with another off-color diamond and several rare stones.

A Bill Against Dueling.

PARIS, July 17.—Bishop Freppel introduced a bill into the Chamber of Deputies to-day abolishing dueling, and demanded urgency for the measure. Freppel referred particularly to the recent encounter, in introducing the bill, between Floquet and Boulanger. The demand for urgency was rejected.

CHANDLER SPEAKS.

He Shows Up the Sneaking, Pro-English Conduct of the Administration on the Fisheries Question.

WASHINGTON, July 16.—Senator Chandler of New Hampshire to-day addressed the Senate on the Fisheries Treaty, which he said was dishonoring to the nation. Chandler quoted from the speech of Sir Charles Tupper, delivered before the Canadian Parliament, which, he said, libeled the Republican party. Never before in the history of the country had emissaries of a foreign government openly engaged in negotiations with one political party, and the Senate ought to find a way to tell them that while American party strifes are bitter enough, they must not be made a basis of political negotiations.

Chandler declared that Joseph Chamberlain came here anxious to negotiate a treaty, even at the expense of conceding all the American Government claimed, but from the vanity and anxiety of Bayard to be known as the negotiator of the "Bayard-Chamberlain treaty," his desire to protect the rights of American fisheries and the national honor was overcome, and Chamberlain suddenly and unexpectedly obtained a victory.

But there must have been in this surrender more than the vanity and decrepitude of Bayard, and it was impossible to resist the conclusion that a combination had been formed between the leaders of the Democratic party to sacrifice the interests of New England fishermen and break down the American tariff system. These injurious assaults on American interests by the combined forces of English free-traders and Southern Democrats ought to be met on the threshold by a rejection of this remarkable treaty.

Chandler declared that the Monroe doctrine had been formally and deliberately abandoned by the present Administration to the South. The Panama Canal was being constructed and within five years the Isthmus of Panama was likely to become a French colony. While the Administration was opposing and defeating the Nicaragua canal scheme, to the North the Dominion of Canada was growing stronger and more powerful than had ever been dreamed. She was boldly seizing the transportation interests of the United States; was forcing her way into American markets; was perpetrating outrages on American fishing vessels, and was forcing us to treat on unequal and degrading terms.

President Cleveland submitted to all these aggressions, and his last annual message, through amazing solecism, had omitted reference to any question of foreign or domestic policy save one, and that one was to recommend Congress to join him in his alliance with Great Britain to strike down the American tariff system. How long was the protection of American interests at home and the defense of the national honor to be intrusted to hands like these?

AN ENCYCLICAL LETTER

Read in Irish Churches and Received With Dissatisfaction.

DUBLIN, July 17.—A Papal encyclical letter was read yesterday in all the Catholic churches in the diocese of Dublin. In the letter the Pope says he has heard with regret that excited meetings had been held, at which inconsiderate and dangerous opinions in regard to the recent Papal decree had been uttered; even the authority of the decree itself being unspared. He has also heard with pain that a forced interpretation was put on the decree, and statements made that it was prepared without sufficient inquiry having previously been made.

The Pope, while strongly denying this assumption, states that the decree was based upon the most complete information. That previous to its issuance he had held interviews with the Irish bishops on the subject, and sent a tried and trusted delegate to Ireland to inquire into and report upon the true condition of affairs.

"The bishops," he says, "must remove all misconception and leave no room for any doubt as to the force of the decree. The whole system of the 'plan of campaign' and boycotting is condemned as unlawful."

The letter is dated June 24th. It causes intense dissatisfaction, and at Bray the people left the church during its reading.

TO THE BITTER END.

The Brotherhood Men Will Make a Fight.

CHICAGO, July 17.—Brotherhood officials here declare they will fight for Hogue to the bitter end, as they believe he is innocent. Hogue said yesterday: "The 'Q' officials are straining every nerve to bring the Brotherhood into discredit and disgrace. The Brotherhood will, however, ride out the storm in spite of the efforts being made to crush it. In regard to the late developments in the case, I will not talk."

Sensational developments in the trial of the "Q" dynamiters and hope of more startling disclosures brought a large crowd to-day to Judge Gresham's courtroom, where Commissioner Hoyne is hearing the evidence. Alex Smith, the Aurora Brotherhood Engineer, who turned informer, was the first witness called. He unhesitatingly confirmed the outline of the case as given the first day of the trial by District Attorney Wins, for the prosecution.

MEXICAN PENSIONS.

Interior Department Asked for Reasons for Disobeying a Supreme Court Order.

WASHINGTON, July 17.—A resolution was introduced in the House to-day by Brown of Virginia, asking Secretary Vilas to communicate to the House his reasons for not having enforced the provisions of the Mexican Pension bill. A long time ago the Supreme Court decided that under the terms of this Act ex-Confederate soldiers who came within the provision of the Mexican Pension law were entitled to the benefit of its provisions. General Page of Norfolk, an ex-Confederate soldier and Veteran of Mexico, has applied for a pension and Commissioner Black refused to grant it. Assistant Secretary Hawkins of the Interior Department overruled Black and decided that Page was entitled to a pension. Vilas approved Hawkins' decision, but Black protested so vigorously that Vilas suspended his order and the matter has since rested. The friends of General Page have been unable to accomplish anything for him, and they now demand to know why the officers of the Government should undertake to disobey a mandate of the Supreme Court.

Sullivan Has Something to Say.

BOSTON, July 17.—John L. Sullivan was in town yesterday. He talked freely to a reporter about himself. He said he had not given up the prize ring by a long sight. Mitchell and Kilrain he declared to be big blowhards, and says he will fight one or both of them whenever they wish for $15,000 or $20.000 a side. He is not dead yet by any means, although many papers are trying very hard to kill him.

TELEGRAPHIC BREVITIES.

—Private advices from Nonquitt, Massachusetts, say that General Sheridan is not improved.

—Senator Quay was formally elected Chairman of the Republican National Committee yesterday.

—Smallpox has broken out among 1,800 patients of the New York Insane Asylum on Ward's Island.

—It is thought that President Cleveland will not sign the River and Harbor bill unless certain of the amendments attached to it by the Senate are withheld.

—In the Senate yesterday Stewart of Nevada introduced a bill authorizing the Secretary of War to issue to the Governor of Montana military stores, etc., for the use of regularly enlisted, organized and uniformed militia of the Territory.

WHY HE FELT GOOD.

Justice Young Has a Gala Day with Transgressors of the Law.

Justice Young was as spry to-day as Nasby generally is when in the presence of a good-looking young lady, and although the thermometer registered in the nineties and his surplus fat larded the floor as he walked, he declared he never felt better in his life. In fact, he felt so good that he began talking about events which took place in the early part of the century, when he was a boy, and incidentally mentioned that if business continued as good as it was at present, he would take a trip in the spring to his old stamping grounds. The cause of the Justice's flow of good spirit will be seen in the annexed account of the proceedings held in his court this A. M. In all he disposed of eleven cases, and, like Oliver Twist, was anxious for more grist for his judicial mill.

The following-named tramps either pleaded or were adjudged guilty of disturbing the peace, and were sentenced as follows: James Beedon, $10 or ten days; Peter Tate, 15 days; George McCormack, 10 days; James McDonnell, 10 days.

Charles Thompson and Louis Thompson, youthful tramps, pleaded guilty of vagrancy, but were allowed to go on their promising to leave town.

James G. Blaine, a vagrant, was ordered to leave town on his promising to change his name to Grover Cleveland.

James Minor, another of the same stripe, was also ordered to go to—Virginia. He went.

Henry Schlussen was convicted of petit larceny, he having stolen a pair of sleeve buttons belonging to Casper Becker, and was sentenced to 30 days' imprisonment in the county jail.

James Brady, arrested for having "stood up" Mike Donahue on the public highway Sunday night, offered to plead guilty to disturbance of the peace if the more serious charge was dismissed. His offer was accepted, and he will serve the county for the next 15 days.

William Williams, arrested as a vagrant, indignantly denied the allegation, and demanded a jury trial. He will be accommodated to-morrow morning at 10 o'clock.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. S. J. Hodgkinson & Co., Druggists.

Why cough and suffer with a cold, when Fryer's Abietene Cough Balsam will give immediate relief? It contains no Opium. Price 75 cents. Sold by W. Pinniger. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

For Throat Diseases, Coughs, Colds, etc., effectual relief is found in the use of "Brown's Bronchial Troches." Sold only in boxes.

BREVITIES.

Local and General Intelligence

"La Belle Russe" at McKissick's Opera House to-night.

Mother Dolores of Mt. St. Mary's Academy went below last evening.

The greatest of American emotional actresses, Jeffreys Lewis, to-night.

A railroad from Eureka to Seligman, White Pine county, is contemplated.

Israel Luce of the Inyo Marble Company returned to San Francisco last night.

Mrs. H. J. Thyes and Mrs. R. H. Lindsay departed for San Francisco last evening.

Miss Hattie Higgins departed for San Francisco last evening on a visit to relatives there.

Last Saturday night fifty-two members joined the Young Men's Republican Club in Carson.

J. R. King, Esq., of Pineville, Oregon, formerly of Carson City, arrived in Reno this morning.

Mrs. J. A. Todman, wife of Captain Todman of Lake Tahoe, died at Salt Lake on the 12th instant.

Miss Taddie Doane, teacher at the Pyramid Indian Reservation, has gone to San Francisco to attend the Convention.

C. W. Friend, the Carson astronomer and meteorologist, added his weight to the west-bound passenger last night.

In the District Court at Carson, July 13, Peter Kain was granted a divorce from his wife, Frances, on the ground of adultery.

Mrs. H. C. Mygatt and Miss Delia McCoy of Virginia City went below last evening to attend the Teachers' Convention.

J. J. Quinn has gone to San Francisco on business connected with the California Fig Company, of which he is Secretary.

Henry Orr, accompanied by a grip sack containing an extra collar and a pair of socks, was a passenger for the Bay last evening.

A San Francisco paper says there has been a perceptible increase in the output of the pickle factories since the school-ma'ams arrived.

Reno would like to have a dose of the sceneoramic lecture with which three Comstock miners are delighting the people of Virginia City.

Judge C. N. Harris of Carson was expectantly awaiting the arrival of his sister on one of the excursion trains from the east last evening.

Professor J. E. Bray of Virginia, State Controller J. F. Hallock and Colonel J. A. Hardin were passengers for the metropolis on last night's train.

Carson *Tribune*: It is reported that the old Greenback paper will shortly start up in the town of Reno and will advocate Democratic principles.

It is reported that Colonel James A. Hardin of Humboldt county and his son C. H. E Hardin of Mason valley, will stump the State for Cleveland and free trade this fall.

General S. H. Marlett, ex-Surveyor General of Nevada, came down from Lake Tahoe last evening, and this morning proceeded to Carson, where he has important legal business to attend.

Mrs. Mary M. Culver, arrested last week in Tuscarora on a charge of incendiarism in setting fire to her own residence was discharged, there being insufficient evidence to sustain the charge.

Most of the school-ma'ams who pass through Reno for San Francisco wear badges. Nasby says it is a waste of good material, as anybody can spot an eastern 'marm as far as the eye can reach.

If the *Enterprise* is to be believed the ranchers of Carson valley are said to manure their fields with the trout planted by Fish Commissioner Carey. They now irrigate principally with young trout.

Dr. Bergman, for many years located in this town, is practicing his profession at Hamburg, Germany. In a letter to a friend he stated that he is doing well and expresses no intention of returning to Nevada.

A tramp, described as being tall and dark-complexioned, is terrorizing the ladies residing in the northwestern portion of the town. A dose of buckshot or a blacksnake matinee will be in order unless the wretch desists from his deviltry.

P. A. Wagner, Esq., formerly of Nevada, now a prominent manufacturer of San Francisco, arrived in Reno last night. Mr. Wagner has just returned from a visit to Washington and other cities east, and stops over to visit relatives here.

Three prisoners, one condemned to death and date fixed for execution, tunneled out of the prison at Helena, M. T., Sunday. The whole country is aroused and the searching parties are so numerous it is not believed possible the men can escape re-capture.

It is now possible to cross the Truckee river without getting the soles of your shoes wet. At least a small boy said so to another yesterday, and when the second small boy doubted the assertion, No. 1 triumphantly yelled out: "Cross over on der bridge, yer fool!"

The scarcity of trout and other fish in the Carson river is due to the absence of screens at the head of irrigating ditches into which the river water is turned. The young fish are carried through the ditches and stranded on the ranches where they perish when the water is shut off.

The Case of Miles Finlen.

The case of Miles Finlen, indicted for the murder of David Pyne, was called in the District Court of Storey county yesterday. Out of a venire of eighty jurors only eleven were obtained, and a venire for forty additional jurors was issued, returnable at 10 o'clock this morning.

Finlen does not appear to have suffered in health during his confinement. His attorneys are W. E. F. Deal and C. E. Mack, and District Attorney Huffaker and James A. Stephens are conducting the prosecution.

Rest at Last.

This morning news was received here of the death at Genoa, at 4:40 A. M., of Miss Lillian Hollingsworth, daughter of W. J. Hollingsworth of this place. Deceased was a native of Iowa, aged 23 years, and has suffered from consumption for years. The funeral will take place at Genoa to-morrow.

RANGE NEWS.

"AMERICAN'S" INTERESTING BUDGET.

What the Cattlemen of Elko County are Doing—More Losses Reported.

Regular Correspondence GAZETTE.]

ELKO, July 14, 1888.

EDITOR GAZETTE: Some of our stockmen and local experts fear that the coming winter will be a long and severe one notwithstanding the unusual cold weather of the past winter. I do not wish to be an alarmist, yet from observations during the past twenty-eight years in this State I am inclined to think Nature gives timely warning when she is about to go off in a phenomenal freak, and the coming winter may be one that will long be remembered for its severity. These prognostications may seem premature when it is so far off in the future and when we have hardly as yet realized that summer is again upon us. Notwithstanding the prediction of our weatherwise friends we may after all have a mild and pleasant one. The most of our ranchers and stockmen will regard the fall of large quantities of snow during the coming winter as a blessing, if not accompanied with too much intense cold weather, like a portion of last January. They deem it for the best interest of their stock to have an abundance of snow during the snow season, with plenty of grass and water to follow the coming summer and fall rather than have a mild winter, with a small crop of grass and hay and partially a barren summer and winter range.

STOCK AND RANGE.

I learn from reliable authority that the stock belonging to Judge R. R. Bigelow and the estate of A. Lowe, deceased, have come out of the past winter in much better condition than was hoped for last March. The round-up and count, as well as the income of calves, have both been highly satisfactory. The home ranch of this firm is situated about nine miles northeast of Elko, and contains all the necessary improvements for the purpose of stockraising, with many broad acres of fine meadow land. Their winter range is quite extensive and well covered this season with grass for summer and winter purposes. It extends to the north fork for a distance of some twelve or fifteen miles, thence northwest for a distance of twenty to twenty-five miles, taking in within its limits Pie creek and Lake valley.

The result of the round-up and brand of a bunch of cattle belonging to Bradley & Russell in Huntington valley the present season is much better than they obtained in the Humboldt valley near Battle Mountain, where this firm has a large holding in both land and cattle; in fact, all the large holdings have sustained unusually heavy losses that are located on either side of the railroad from Beowawe to Lovelock, chiefly in old cows and delicate calves, while on the Upper Humboldt and its branches, from Elko to their sources, stock has fared well and the output of calves is good, with plenty of grass for hay and fall pasture, and at the same time leaving the winter range in good condition to meet the winter. By the first of August there will be plenty of fat beeves for the market.

Near the head of the main Humboldt, at the confluent of Mary's river with the Humboldt on the southeast side, is situated William Smiley's valuable hay and stock ranch, with the main Humboldt flowing through the entire length from northeast to southwest, and with another large and beautiful stream of mountain water intersecting the Humboldt at right angles. These two streams afford the entire season more water than can be readily utilized for irrigating, domestic or any other purposes. This ranch has one of the best water privileges in the State, and the beautiful meadow land that comprises his large ranch is beyond doubt one of the finest in Nevada. Mr. Smiley fed some 800 head of cattle during the entire past winter and the result is that he has sustained little or no loss worth mentioning. His crop of calves is satisfactory and he is able to carry over to the coming winter nine immense ricks of fine hay. His barn, feed corrals and hay racks for feeding are models of convenience. There is a general air of neatness and order and good management that seem to surround the whole premises.

The Hunter Brothers are the owners of a large band of cattle, of which some 2,000 head were wintered on White river, White Pine county. The recent round-up and drive of that bunch back to the railroad to their summer range north, was completed a few days ago. The unusual large quantity of snow and cold weather in that locality the past season plainly showed its effects upon the stock that passed through the ordeal of a strange, cold, open winter range. The branding was also unsatisfactory. This firm noted the same unfavorable results upon their Dickie valley range, but north of the railroad, upon Big and Little Susie and Maggie creeks and around Lone mountain northward to Pie creek, their cattle did well, coming out of the winter in good condition, with an exceedingly low death rate among old and worn out cows. The feed upon their range at present, with plenty of water, is all that could be desired by the most exacting stock man.

I learn from Isaac Oestreicher, of the firm of Oestreicher & Bartlett of Elko, that they have now in contemplation the erection of a large, two-story brick hotel at the town of Tuscarora during the latter part of the present summer or coming fall, if certain negotiations now pending with certain parties shall terminate favorably.

AMERICAN.

JEFFREYS-LEWIS.

The Attraction To-night at the McKissick Opera House.

In speaking of Jeffreys-Lewis, who will appear in "La Belle Russe" at McKissick's Opera House to-night, the *Herald* of Helena, Montana, says: "Jeffreys-Lewis, than whom no actress of to-day is a greater favorite on the Pacific slope, opened her Helena engagement last night at Ming's Opera House. The opening play was her own marvelous creation, La Belle Russe, and as in former times, she charmed her cultured audience with her beauty and captivated them with her art. She has lots none of her personal attractiveness or fallen off a bit in the intensity of her acting since her last appearance in Helena. The unscrupulous, intriguing woman of the gay world she portrayed with a perfection that is her's alone, and evoked great applause in every scene. She is accompanied by a fair troupe that render average support. Harry Mainhall is her leading man, and played Captain Dudley Brand with his usual correctness and fervor. The interesting play was heartily enjoyed by all present, and the frequency of the applause showed that it and the actress had lost none of their popularity."

Reserved seats at Nasby's Bazaar.

A Beautiful Sunset.

The passengers over the Virginia & Truckee last night were treated to a beautiful sunset. After passing Steamboat Springs the opening in the hills back of Huffaker's made the sky appear to take the form of a large lake of emerald green water, with islands of gold interspersed here and there with every shade of color from the near shore to the farther. Rolling beyond were masses of clouds that seemed like the roaring flames of a vast conflagration, while curling above were extensive plumes of ostrich black, which acted as a foil for the green and gold, and added to the rich beauty of the scene. The very leaves of the trees were shaded by these varying colors, and the sunset entirely commanded the attention of the sterner sex and made the school ma'ams on board, bound for San Francisco, feel as if they were already within the portals of the Golden Gate.

Attempted Highway Robbery.

Last evening about 9 o'clock as Jarvis Smith, the young son of Richard Smith, was wending his way homeward, and when opposite the residence of his parents he was stopped by two tramps, one of whom held him while the other pointed an object, thought to be a pistol, at the head of the scared youngster. His mother, who was seated on the porch of her residence, awaiting her son's return, heard the commotion and immediately cried out: "What are you doing there?" and started to the rescue. This alarmed the thieves, who took to their heels and were soon lost to view in the darkness.

A "Photograph" Crowd.

The army of teachers now passing through Reno is what Johnny Fitz-Gerald of the Depot Hotel calls a "photograph" crowd. They carry pictures of appetizing eatables with them, and when meal time arrives, pull them out, gaze at them with a beatific expression, drink a cupful of C. P. water and then complacently pick their teeth as if they had just enjoyed a square meal.

Carsonites will be Welcomed.

Enterprise: Reno is now posing as the great sanitarium for debilitated Carsonites. The GAZETTE says many of the best people of Carson will spend the hot season there. This is so cool that it will probably do the Carsonites as much good in their homes and under their own vine and fig tree as would a trip to the Riverside town.

Fashion,

And society, impose many privations upon the female sex, in the way of dress. First it is one freak, and then another, and from the fact, that many of them are unhealthy in the extreme, it is small wonder that many women succumb, and that "female weakness" are the too frequent result. Dr. Pierce's Favorite Prescription is the only positive cure for these complaints in existence, and thousands of women can bear witness to its efficacy. "Favorite Prescription" is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is the only medicine for women, sold by druggists, *under a positive guarantee*, from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Dr. Pierce's Pellets, or anti-bilious Granules, Laxative or Cathartic, according to size of dose. Purely vegetable.

POLITICAL PROGNOSTICATIONS

Patriots Who are Willing to Serve the Dear People.

Although the national tickets are in the field and the State campaign is under way, local politics still remain at a stand-still. So far, not a political aspirant for a county office has presented his *cabeza* to an expectant public. All of them, and there are many, are evidently waiting for the lassoo of public favor to encircle their necks and drag them into prominence—in other words, they desire the office to seek (?) them. The present occupants of the various county offices also put on an air of innocence when asked if they will again go before the people, but at the same time it is generally believed that not one of them has tired of working for the public, and that they will again shy their castors into the ring.

For District Attorney the names of the following Republicans are mentioned: Pierce Evans (present incumbent), R. H. Lindsay and T. V. Julien. Who the Democrats will put up is not known, as their only available candidate, Charles A. Jones, has stated that he has no ambition to become the adviser of the county.

For Sheriff J. F. Emmitt is undoubtedly in the lead for the Republican nomination, and Sheriff Flint will without doubt be honored by his party with a renomination.

Tom Julien can have the nomination for County Clerk for the mere asking of it, and no one the Democrats can put up can defeat him at the polls

J. B. Williams, (Democrat) the Recorder, is another war horse who thinks that he can win the political race in a canter, and the same can also be said of Dan Boyd (Republican) the present efficient incumbent of the Treasurer's office.

For the nominations for Commissioners nothing can now be authoritatively said, but there is but little doubt that Tom Hymers will again aspire to that office. Both he and Commissioner Merrill go out of office this year but the latter is reported to have had all the glory attached to that thankless position he wants, and will probably retire in favor of some other patriot, who is imbued with the idea that his intellectual dome contains sufficient gray matter to insure a successful administration of county affairs. McLaughlin, being a hold-over, will not figure in the campaign.

Justice Young will also seek a renomination for Justice of the Peace, and Constable Upson will also submit his claims for a renomination to the Convention.

In the meantime, if there are any other aspirants for political favors they can make their wants known through the columns of the GAZETTE for the small sum of $10, the rate charged for a political announcement. An extra clerk will be in attendance to wait upon the would-be candidates and sign receipts. Office hours from 7 A. M. till 6 P. M.

Irritation of the Throat and all lung troubles are quickly relieved and permanently cured by Fryer's Abietene Cough Balsam. (It contains no Opium.) Price 75 cents. Sold by W. Pinniger. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

Whether from swampy land or stagnant pool, or from the deadly gases of city sewers, malarial poisons are the same. Ayer's Ague Cure, taken according to directions, is a warranted specific for malarial disorders.

250 BEAUTIFUL LOTS FOR SALE!

From $200 to $600!

A Rare Chance for Investment and a Home.

THE MOST LOVELY PORTION OF RENO.

FACING THE TRUCKEE—THE ARISTOCRATIC RIVERSIDE AVENUE DRIVEWAY—SPLENDID SEWERAGE—HEALTHFUL LOCATION AND SAFE FROM FIRE.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town, this addition faces the beautiful Truckee River, and Riverside avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is, it is more exempt from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before buying elsewhere, Parties will do well to look at these Lots.

MISCELLANEOUS.

AYER'S PILLS

CURE HEADACHE.

Headaches are usually induced by costiveness, indigestion, foul stomach, or other derangements of the digestive system, and may be easily cured by the use of Ayer's Pills. Mrs. Mary A. Scott, Portland, Me., writes: "I had suffered dreadfully from Sick Headache, and thought myself incurable. Disorder of the stomach caused it. Ayer's Pills cured me entirely."

CURE BILIOUSNESS.

John C. Pattison, Lowell, Nebr., writes: "I was attacked with Bilious Fever, which was followed by Jaundice. I was so dangerously ill, that my friends despaired of my recovery. I commenced taking Ayer's Cathartic Pills, and soon regained my customary strength and vigor. I feel certain that I owe my recovery to your invaluable Pills."

CURE INDIGESTION.

Ayer's Pills act directly on the digestive and assimilative organs, influencing healthful action, imparting strength, and eradicating disease. G. W. Mooney, Walla Walla, W. T., writes: "I have suffered from Dyspepsia and Liver troubles for years past. I found no permanent relief, until I commenced taking Ayer's Pills, which have effected a complete cure."

CURE RHEUMATISM.

Rheumatism is among the most painful of the disorders arising from vitiated blood and derangement of the digestive and biliary organs. Ayer's Pills relieve and cure Rheumatism when other remedies fail. S. M. Spencer, Syracuse, N. Y., writes: "I was confined to my bed, with Rheumatism, three months, but, after using a few boxes of Ayer's Pills, became a well man."

CURE GOUT.

S. Lansing, Yonkers, N. Y., writes: "Recommended to me as a cure for chronic Costiveness, Ayer's Pills have relieved me not only from that trouble, but also from Gout. If every victim of the disease would heed only three words of mine, I could banish Gout from the land. Those words would be, 'Try Ayer's Pills.'"

CURE PILES.

Piles are induced by habitual constipation, debility, indigestion, or a morbid condition of the liver. A cure is best effected by the use of Ayer's Pills. John Lazarus, St. John, N. B., writes: "I was cured of the Piles by the use of Ayer's Pills. They not only cured me of that disagreeable disorder, but gave me new life and health."

A WALL STREET BEAR.

A MONETARY SALMAGUNDI.

Addison Cammack's Fabian Policy in Stock Campaigns—Rooms of Millionaires That Cost a Fortune To Furnish—The Famous Bill Travers and His Methods.

(*Copyright* 1888.)

"There is a monkey and parrot time ahead for those who believe in higher prices for stocks," said Addison Cammack, now one of the most prominent stock operators.

His opinion is of no special importance; he is quite as likely to be wrong as right, and yet Wall street now closely watches his movements and listens to his words as it might to an oracle. He is the successor of "Baron" Woerishoffer who suggested a mediæval robber baron of the Black Forest of Germany riding booted and spurred to perpetual attacks on great properties which he had sold in advance at his own valuation—in other words a persistent and almost chronic "bear." Cammack, or "Cam," as he is familiarly called, is, however, of a very different temperament. There is nothing of the soldier in his composition; he is an adept at running—he was a blockade runner it seems during the war trading with Nassau, and he sails into the market now like one of the old rakish-looking war blockade steamers painted gray and setting well down in the water, stealing past the Union gun-boats and men-of-war in a Southern harbor on a dark night to secure a cargo of cotton worth a thousand dollars a bale, and then with lights out and amid a death-like stillness creeping out again at three o'clock in the morning past the frowning port holes of the ironclads to the open sea and an inviting tropical market.

Cammack never shows fight; he never had the pluck to enter the Southern ranks and carry a musket—he would rather, it is generally understood, run the blockade; he carries no guns; he puts on full steam and takes to his heels at the first sign of a speculative man-of-war that might blow him out of water. In other words if he finds he is on the losing side he runs at once.

He tries the stock market as a boy would try the ice on a skating pond to see whether it will bear; he tests the market by putting his foot on it. If it will easily bear his whole weight—that is, his largest "short" sales—he "covers" at once and takes the other stock. If the ice breaks he pounds it until it is deep on the "bear" side. It was as a bear that he made a large part of his fortune of six or seven millions. Such an operator thinks very little of carrying fifty thousand shares of stock.

He is a large man with large square features which do not usually relax into a smile unless the value of other people's property is falling. He is in middle life and was a bachelor until a year or two ago when he married a young wife. He is very brusque in his manners and is therefore not generally liked. One of the strange stories told about him is that he once lent Jay Gould two million dollars without a scrap of paper as security, and that Mr. Gould returned the money. I mention Cammack because one hears his doleful prognostications quoted so often now in Wall street. He stands like a wrecker, glass in hand on a rock-bound coast, watching a richly freighted ship that he hopes will be driven ashore in some hurricane and delight his itching fingers with the spoil.

Almost daily he may be seen in a broker's office in Broad street sharply eyeing the tape as it reels off the story of the speculative fight, and in the evening he paces the tessellated marble floor of the Windsor Hotel office and talks with grim satisfaction of the trouble which he thinks is coming upon the railroad companies because of a lack of freight and the cutting of rates and the dullness of trade. His speculative strategy is unconsciously based on the Fabian policy; he always retreats rather than incur big risks; he does not undertake to fight the market as the operator with a few hundred dollars always does; he simply tries to find out which way it is really headed and then he "tails in" after it. He has made it pay.

The famous Wm. R. Travers pursued much the same policy. After the famous Trent affair in the late war when Confederate Commissioners Mason and Slidell were taken from an English steamer by a Union commander, Mr. Travers, who stuttered, said:

"B-b-boys, sell 'em s-s-short."

War with England seemed inevitable; the danger kept the stock market agitated for months. There was then no Atlantic cable, and the only communication with Europe was therefore by steamers which arrived about once a week. They always brought the London *Times*, which breathed out slaughter like a green-eyed dragon of a fairy tale, belching fire from mouth and nostrils and frightening the stock speculators as the scaly-coated monster of the wonder-book does the little dumpling-faced frequenters of the nursery. Of course, it now seems ridiculous and cowardly bluster, but the North in the agonies of a Titantic struggle could not attend to John Bull at that moment, and was glad enough that a stout little lady who was friendly to the United States happened to be on the British throne to keep British statesmen with hungry eyes on America in check. And among the number, by the way, was Gladstone.

Every time a steamer arrived Travers had some one on hand to secure the English newspapers, and he often paid large fees to pursers for copies in advance of anyone else. Then he would rush around to the Stock Exchange and either put out fresh lines of short sales or else "cover" as circumstances seemed to require. But he sold short every time the market rallied until the Trent affair was settled. He acted on the theory that when there is a cloud on the market it is good policy to sell short and continue to do so until the cloud is entirely dispelled.

"Speaking of the fact that Wm. K. Vanderbilt," said a well-known club man the other evening, "has a room in his house which cost one hundred and seventy-five thousand dollars to furnish, recalls something not generally known, that you can give an order to an agent in New York and secure some rare old furnishings from the palaces of the nobility of Europe. In many of the houses of New York millionaires there are rooms with furnishing once owned by European nobility—the same antique furniture, the same tapestried ceilings and walls, the same wooden ceilings, and paneling and richly-carved mahogany wainscoting, seven feet high, and canvas ceilings adorned with beautiful oil paintings. Sometimes a room is an exact facsimile of one that a New York man has happened to see in some palace of Europe, and the cost is often enormous. The peerage are not averse to selling. A few years ago the Duke of Marlborough sold a million dollars' worth of valuable furnishings."

Self-Sacrificing.

"Wonderful! How voracious these dogs are! This is the fourth bone that I have given to my Hector, and still he has not enough— Waiter, another chop."—*Fliegende Blätter.*

MEDICAL.

EVERY NIGHT I SCRATCHED

Until the Skin was Raw. Body Covered with scales like spots of mortar. Cured by the Cuticura Remedies.

I am going to tell you of the extraordinary change your Cuticura Remedies performed on me. About the first of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, and then the next night the scales being formed meanwhile were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your Cuticura Remedies, and purchased them from my druggist and obtained almost immediate relief. I began to notice that the scaly eruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the Cuticura Remedies, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommended the Cuticura Remedies to all in my vicinity, and I know of a great many who have taken them and thank me for the knowledge of them, especially mothers who have babes with scaly eruptions on their heads and bodies. I cannot express in words the thanks to you for what the Cuticura Remedies have been to me. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and clear as a baby's.
